RE: Gus Bus (Gustavus Student Senate) Contract Renewal

ACTION/RECOMMENDATION

Approve a new contract to provide transit service to Gustavus students on selected weekends through the 2017-2018 and 2018-2019 school years.

BACKGROUND

The former Saint Peter Transit has provided weekend/evening transportation for Gustavus Adolphus College (GAC) students since 2006. The contract provided for transportation for GAC students between campus, downtown and other community locations such as McDonalds with various stops on a demand basis. The service is commonly referred to as the “Gus Bus”.

In the new contract with MRVT, we need to include the cost of a Transit Support Specialist and complete the dates of service to cover the next two academic school years. GAC staff are determining the service dates for the 2018-2019 academic year and we will insert them in the contract prior to executing the contract.

The proposed contract provides for two buses from 9:00 PM to 2:00 AM on both Friday and Saturday evenings for 27 weekends during the academic year; a bus on 32 Wednesday nights from 10:00 PM to 2:00 AM; and adds a third bus on Friday and Saturday nights from 10:00 PM to 2:00 AM during the months of December through March due to added demand and ridership.

Under the terms of the proposed contract, Gustavus Adolphus College will agree to pay the Minnesota River Valley Transit $37.50 per hour/per bus for the service and $25.00 per hour for each hour that one or more buses are in service to cover the cost of a Transit Support Specialist. GAC has paid these rates for the 2016-2017 school year as well. We believe these costs are appropriate and represent the actual cost of your operations.

We recommend you provide approval for staff to enter the contract once the dates for service have been finalized.

FISCAL IMPACT:

MRVT will receive approximately $35,000 in revenue for providing this service. This funding helps support our 20% local contribution required in the State operating and capital grants.
ALTERNATIVES AND VARIATIONS:
Do not act. Staff will wait for additional direction.
Negative vote: The service will not be provided and staff will wait for direction on where cut backs should be made to offset the operating cost of MRVT.
Modification of the Resolution: This is always an option of the Joint Powers Board.

Please feel free to contact us should you have any concerns or questions on this agenda item.

RE: 2018 Operating/Capital Grant Applications and Title VI Transit Plan

ACTION/RECOMMENDATION

Approve submission of the 2018 transit operation and capital grants to the Minnesota Department of Transportation (MnDOT), Office of Transit and the Title VI Transit Plan

BACKGROUND

The 2018 goal for Minnesota River Valley Transit (MRVT) is to continue growing the new Le Sueur/Saint Peter/Mankato route, while improving the efficiency of our existing service in the Le Sueur and Saint Peter service areas.

Funding from MnDOT in the amount of eighty percent (80%) of the total projected operating costs will allow us to continue to provide this valuable transportation service to residents of our communities.

The 2018 budget is proposed to be submitted in the total amount of $838,275 which is $27,981 less than the 2017 budget. The 2017 operating budget was based on the combination of the 2016 operating plans for both Le Sueur and Saint Peter Transit systems. The cost of Transit Support/dispatch appears to have been slightly over estimated in 2017, along with fuel expense. The cost allocation between agencies is identified below:

The Capital Funds grant is used for the replacement of buses. The deadline for both Operations and Capital applications is July 28, 2017. A Capital Grant would allow for ordering a new bus in 2018 with an expected delivery date of late 2018 or early 2019. MnDOT uses a service life expectancy for these buses of 5 years or 150,000 miles. The process of ordering a bus normally begins in late spring or early summer.

Our current fleet of nine buses includes three buses that have over 100,000 miles and a fourth bus with 95,000 miles. It is estimated that our annual total miles will be 150,000 to 170,000. With miles accumulating at this rate, we will likely need to replace one bus per year in order to maintain a reliable fleet of buses. After a review of the age of our buses and current mileage by
our MnDOT Project Manager, she agreed that MRVT should submit an application for a 2018 Capital Grant. The State and Federal share of the capital cost is also 80%. MnDOT bases the grants on projected costs of the buses which for 2018 is $81,000.

If the capital grant is approved by MnDOT, the process of equipping and pricing the bus will begin in early 2018. The final decision to order a bus would need to be made in May or June. If the required revenue to pay the local share is not available at that time, the order would not be placed and there would be no cost to MRVT.

We recommend the Board authorize submission of both an operations and capital grant for 2018.

In addition, prior to submission of the grant applications, staff also recommends re-adoption of Minnesota River Valley Transit’s Title VI plan. As a recipient of Federal funds, MnDOT is obligated to comply with Title VI of the Civil Rights Act of 1964, which prohibits discrimination on the basis of race, color, or national origin. Reasonable steps also need to be taken to provide meaningful access to transit services for persons who do not speak or read English as their primary language. As a sub-recipient of Federal funds, MRVT is also required to comply with Title VI. The MnDOT Office of Transit requires that the Title VI plan be reviewed each year and that a resolution adopting the plan be uploaded into the grant application. In the event there are changes made to the plan, a new resolution would be required at that time.

The six documents that make up the plan are enclosed in the packet and include the following:

- Two of the six documents that are required are disclosure documents.
- The Decision Maker Chart is used to disclose anyone in a decision making position that is not an elected official.
- The Investigations document is used to disclose the number and nature of complaints made in the recent past.
- The Notification is required to be posted on each of the buses.
- The Language Assistance Plan documents the plan to meet the needs of those individuals in our service area who have Limited English Proficiency (LEP). This includes outreach to the LEP community, translation of schedules and brochures into other languages (required when LEP population reaches 5%), training of staff, and use of an interpreter at public meetings, if requested.
- The Public Participation Plan states the Board’s intent to provide public notification of actions and decisions and to encourage meaningful participation by the public.
- The last document is the Complaint Procedures and Complaint Form. The Board is required to make complaint forms and procedures available so that anyone who feels they have been discriminated against based on their “race, color or national origin” can file a complaint. The procedures also provide information regarding to whom the complaint may be made.

Again, two actions are recommended to the Board:

- Approve submission of both the operations and capital grant applications for 2018.
- Re-approve the system’s Title VI plan.
FISCAL IMPACT:

Should these grant applications not be approved for submission, we would face a substantial shortage of funds to operate at our current service levels. Projected revenue is anticipated to be sufficient to meet the required match if the funding application from the State is approved.

ALTERNATIVES/VARIATIONS:

Do not Act: Staff will wait for your direction; however, the transit grant applications must be submitted no later than July 28, 2017.

Negative Vote: Staff will wait for your direction; however, the transit grant application must be submitted no later than July 28, 2017.

Modification of the Resolution: This is always an option of the Joint Powers Board.
